Education

Instituto Tecnológico Autónomo de México	(Mexico City, Mexico)
▪ B.Sc. in Economics	2014–2019
▪ M.Sc. in Applied Economics	2024–2027

Work Experience

Center for Latin American Monetary Studies	2020–Present	Research Analyst
▪ Conduct applied macroeconomic research on monetary policy, inflation forecasting, and labor markets, including coauthored working papers; prepare data and policy analysis on macroeconomic and financial stability developments relevant to central banks in Latin America and the Caribbean.		
▪ Assist in the organization of research conferences, seminars, technical courses, and meetings of high-level officials of central banks in Latin America and the Caribbean.		
National Commission for Regulatory Improvement	2019–2020	Research Assistant
▪ Conduct data analysis, and gather materials for INEGI's (Mexico's statistical agency) microdata application to obtain data on firms and household surveys for the (former) Regulatory Innovation Unit research agenda (regulatory burden effect on firm behavior, effects of microcredit on women's welfare, and food-labeling regulation).
